Rusty Van Becelaere	Freddy Vans

Brian Troglia	SMS
Marvin Barnaby	SMS
Marlene Spence	SMS
Randy Johnson	SMS

Pre-Bid Meeting Minutes
January 3, 2013

Brian Troglia, Project Manager, opened the meeting at approximately 10:00 a.m. on Thursday, January 3, 2013. Mr. Troglia indicated there was a sign up sheet for the meeting and announced that this conference was mandatory.

The Bid Event ID Number EVTOOO1896 must be shown on all correspondence or other documents and must be referred to in all verbal communications.

The attendees were advised the bids will be due in Topeka on Wednesday, January 23, 2013, at 2:00p.m., and the last day for questions will be Wednesday, January 9, 2013 and all questions about the IFB (Invitation for Bid) must be submitted in WRJTING to David Stueve, Procurement Officer, Topeka prior to 12:00 p.m. on that day. All inquiries, written or verbal, shall be directed to the procurement officer only.

The attendees were requested to fill out the sign up sheet. Quote# for the 2012 Vertical Opening Project is EVTOOO1896

Mr. Brian Troglia introduced himself, Marvin Barnaby (Engineer), Randy Johnson (Inspection Supervisor) and Marlene Spence (Program Services).

Brian informed everyone about the Signature Sheet, which is a new Item in the Bid Process.

The meeting minutes and questions will be sent out in the form of an addendum.

This contract is a 1 year contract with the option of 4 renewals for a total of 5 years. However, there is a possibility that this contract will not be renewed after the first year if both parties are not in agreement.

Regarding the Form of Bid, estimated quantities marked with a (+) are the total amount for all the holes and are for bid purpose only. The number of holes used to calculate the quantities for bidding purposes is 115 holes. Many sites contain more than one hole.

The Coal VO Contract is for Crawford and Cherokee Counties, if there is a hole in a different county we would issue a change order and renegotiate for Mob and Demob.

The holes can range anywhere in between a \$75 hole to a \$5,000 hole. The average amount of holes a year is around 60. The SMS will spend approximately \$100,000 per year filling holes until the funds run out.

Bidders are to include available Equipment List with the bid.

On locations, we typically work in the middle of fields or road ditches. Sometimes we have to make a road, clear trees or whatever is necessary to access the holes. That goes back to the type of equipment you can use.

..

The SMS will make sure that all the holes will be filled on one location before moving to the next location.

Marlene showed to the bidders the difference between the former Form of Bid and the new Form. The SMS will provide clarification on how any addendums are to be acknowledged.

Brian suggested, that the bidders call David Stueve, in Topeka, prior to the Closing Date and ask how many addendums there are, so nobody will miss one.
